Report on Number & Area of Operational Holdings, Odisha

Directorate of Economics & Statistics, Odisha, Bhubaneswar
Acknowledgements

The Department of Agriculture & Cooperation, Government of India has been funding for conducting of Agricultural Census throughout the country since, 1970-71. So far eight censuses with reference year 1970-71, 1976-77, 1980-81, 1985-86, 1990-91, 1995-96, 2000-01 & 2005-06 have been conducted in the State. The results of number of operational holdings & area operated during Agricultural Census, 2005-06 have now been published giving State & District wise details.

It has been possible to complete the field work with the cooperation of District Statistical Offices & Deputy Director (Statistics) , Ranges. I am extremely thankful to them for their cooperation.

I am also thankful to Sri D. Behera, Joint Director (Ag Census), Sri E. Soreng, Deputy Director(Ag Census), M.F.Khan, Assistant Director(Ag Census), Smt R.Pati, Assistant Director(Ag Census), Sri P.K. Mohanty, Statistical Investigator, Sri D.K.Sahoo, Statistical Assistant, Sri N.C.Jena, Statistical Assistant & Sri P.K.Swain, Statistical Assistant & Sri S.Ch.Sahoo, Statistical Assistant (Computer Centre), who have made sincere efforts in course of conduct of the Census, Scrutiny, Computerization , Report writing & designing of tables & formats.

I hope the results presented in this report would be extremely useful for those associated in the development of Agriculture in the State.

(Sri M.K.Nanda)
Director, Eco & Stat
Sri P. Dash, I.S.S  
Special Secretary to Government,  
Planning & Coordination Department,  
Orissa.

PREFACE

The Agricultural Census, 2005-06, being the eighth in the series has been conducted in the State by the Directorate of Economics & Statistics, Orissa under Planning & Coordination Department. The last seven rounds of the Census have been conducted at Board of Revenue under Revenue Department.

The unit of survey under Agricultural Census is “Operational Holding”. According to definition operational holding including all land which is used wholly or partly for agricultural production and is operated as one technical unit by one person alone or with others without regard to the title, legal form, size or location. Data collection is resorted to operational holdings selected from 20% sample villages in the State. The report describes number of holdings & operated area by sex, type & social groups in the State. The field functionaries of District Statistical Offices under active supervision of Dist Statistical Officers & Dy Director (statistics), Ranges are involved in collecting above information with overall guidance from DE&S.

I would like to thank all officers and staff involved in the entire process of Agriculture Census. The data processing & table generation work of the Census was assigned to DOEACC, Kolkata under supervision of NIC, New Delhi by the Government of India. I thank the persons of DOEACC & NIC for extending cooperation.

I hope the publication will be useful for planners, policy makers, & researchers at the State & all India level.

(P. Dash)

★★★★★
The operational holding of the state is 43.56 lakh in 2005-06 compared to 40.67 lakh in 2000-01. This indicates that there is a surge of 7.11% in number of holdings.

In case of operated area it is noticed that the state witness a decline in operated area from 50.81 lakh in 2000-01 to 50.19 lakh in 2005-06, the percentage decline comes to 1.21.

The number of holdings in Semi-medium, Medium & Large category in 2005-06 declines by 5.67%, 17.63% and 14.71% respectively whereas it is increased by 13.19% in marginal category and 3.82% in small category.

97.30% of the total individual holdings correspond to male category, whereas female category of holdings accounts for 2.70% only. In case of joint holdings, the proportion of male & female category is 89.20% & 10.80% respectively.

The total SC holdings is 6.31 lakh with operated area of 5.27 lakh ha. The percentage increase in holdings works out to 10.93 as against 7.11 in All Category. The operated area of SC category of holdings appears to be increased with 2.45% in 2005-06 from 2000-01.

The total ST holdings is 14.07 lakh with operated area of 17.48 lakh ha. It is found that there is an increase of about 14% in number of ST holdings in 2005-06 over 2000-01 as against rise of 7.20% in operated area.
The average size of holding for all social groups in the State is 1.15 ha as against 0.83 ha for SC & 1.24 ha for ST category.

The projected number of holdings & area of the State for 2010-11 would be 43.84 lakh & 46.79 lakh ha respectively.

Mayurbhanj district has maximum number of holdings with 3.41 lakh having ranked one followed by Ganjam (3.17 lakh) ranked as two. The lowest ranking district is Deogarh (0.38 lakh) followed by Jharsuguda & Boudh. There are twenty one districts whose ranks are changed due to increase or decrease of holdings in 2005-06 over 2000-01.

The average size of holding in Sambalpur district is the highest with 1.90 ha as against state average of 1.15 ha. Besides above the average size of holdings in 13 districts like Bargarh, Boudh, Bolangir, Dhenkanal, Deogarh, Jharsuguda, Kalahandi, Koraput, Malkangiri, Nabarangpur, Nuapada, Rayagada, Sundergarh are above the state average. The lowest size of holding district is Puri with 0.72 ha.
CHAPTER - 1

OPERATIONAL HOLDINGS at State Level

The operational holding of the state is 43.56 lakh in 2005-06 compared to 40.67 lakh in 2000-01. This indicates that there is a surge in number of operational holdings in the state. The absolute increase is 2.89 lakh & the corresponding percentage is 7.11. In case of operated area it is noticed that the state witness a decline in operated area from 50.81 lakh in 2000-01 to 50.19 lakh in 2005-06, the percentage decline is (-)1.21.

</tbody>
</table>

The reason of increase in number of operational holdings may be attributed to various factors like fragmentation holdings due to division of families, leasing of land to small & marginal farmers by farmers of higher size class etc. The decrease in operated area may be due to urbanization, conversion of land to non agricultural purposes like buildings, go downs etc. The Fig-1 & 2 clearly depicts percentage change in number of holdings & operated area in 2005-06 over 2000-01. The number of holdings in Semi-medium, Medium & Large category in 2005-06 declines by 5.67%, 17.63% and 14.71% respectively. The corresponding area of holdings in the above three categories are also decreasing by 6.96%, 19.49% & 17.76%.
Figure - 1
Percentage Change in number of holdings in 2005-06 over 2000-01

Figure - 2
Percentage Change in operated area in 2005-06 over 2000-01
But in marginal & small category of holdings, the number of holdings in 2005-06 grow upward by 13.19% & 3.82%. The area of holdings in the above two category also increases by 16.15% & 2.85% respectively.

</table>
The table 1.2 & 1.2(a) indicates percentage of holdings & operated area by sex & type of holdings like individual, joint & institutional holdings under Agricultural Census, 2005-06. 97.30% of the total individual holdings correspond to male category, where as female category of holdings accounts for 2.70% only. In case of joint holdings, the proportion of male & female category is 89.20% & 10.80% respectively. The corresponding operated area for individual male & female is 97.50% & 2.50%, where as it is 91.80% for joint male & 8.20% for joint female holdings. It is also noticed that the proportion of female holding is higher with 1.70% in marginal category & there is no female holding in large category.

The table 1.3 below provides ten size class wise distributions of operational holdings by type & sex. It is found that out of the total individual holdings of 4342165 in the state, the proportions of number of holdings out of total individual holdings in the size class <0.5ha, 0.5-1.00ha, 1.00-2.00ha are 29.60%, 30.00 %& 26.50 % respectively. In case of joint holdings, the proportions of holdings out of total joint holdings in the size class <0.5ha, 0.5-1.00ha, 1.00-2.00ha & 2.00-3.00 ha are 21.9%, 28.6%, 26.1% , 10.6% respectively. It is also noticed that the proportion of holdings in different size classes decreases with the increase of size class. The proportion of female holdings under individual category in <0.5, 0.5-1.00 size class is 1.00% & 0.8% respectively, where as under joint holding type, the proportions of female holding in <0.5, 0.5-1.00 & 1.00-2.00 size class are 2.1%, 4.00% & 3.4% respectively. It is evident from table that female holdings under joint holding type are more compared to individual type of holding.

<td>12610</td>
<td>2.45</td>
</tr>
</tbody>
</table>

There is an absolute increase of 62170 holdings in 2005-06 in SC category. The percentage increase in holdings works out to 10.93 as against 7.11 in All Category. The operated area of SC category of holdings appears to be increased with 2.45% in 2005-06 from 2000-01. Thus it is observed that the number & area of holdings in all classes swings upward in 2005-06. But the semi-medium, medium & large category of holdings shows deceleration in numbers & operated area, where as the number & area under marginal & small category of holdings exhibits increasing trend.

</table>

( Agricultural Census-2005-06)

The table 1.5 indicates SC category of holdings by type & sex. Out of total individual SC holdings, 97% constitutes male holdings & 2.58% corresponds to female holdings. The proportion of female holding in marginal category of individual type stands at 1.85%, whereas the corresponding proportion of female holding in joint type constitutes 7.7%. Thus it is evident that female holdings under joint type are more compared to individual type of holding under SC category.

### Social Group-Scheduled Tribes

#### Table 1.6

**No of Holdings & Operated Area in the State & Comparative Analysis under Agricultural Census, 2005-06 & 2000-01**

</table>
The ST category of holdings & operated area with absolute & percentage increase/decrease are presented in table-1.6. It is found that there is an increase of about 14% in number of ST holdings in 2005-06 over 2000-01 as against rise of 7.20% in operated area. The marginal, small & semi-medium category of holdings in 2005-06 shows an acceleration of holdings & area, where as medium & large holdings are decreasing under ST category.

</tbody>
</table>

( Agricultural Census, 2005-06)

The ST category of percentage of holdings by sex & type is given in table-1.7. Like SC category as well as All size group, major proportion of holdings under individual type (96%) corresponds to male holdings as against 3.87% female holdings. The proportion of female holdings under joint type constitutes 14.06%.

**Average size of Holding at State Level**

**Table 1.8**

<table>
<thead>
<tr>
<th>Size Class</th>
<th>Scheduled Caste</th>
<th>Scheduled Tribe</th>
<th>All Social Group</th>
</tr>
</thead>
<tbody>
<tr>
<td>Marginal</td>
<td>0.47</td>
<td>0.56</td>
<td>0.52</td>
</tr>
<tr>
<td>Small</td>
<td>1.34</td>
<td>1.39</td>
<td>1.37</td>

<td>14.06</td>
<td>13.12</td>
<td>15.89</td>
</tr>
<tr>
<td>All Size Class</td>
<td>0.83</td>
<td>1.24</td>
<td>1.15</td>
</tr>
</tbody>
</table>
The average size of holding for all social groups in the State is 1.15 ha as against 0.83 ha for SC & 1.24 ha for ST category. The average size in ST category is 0.09 point higher than all social groups, where as it is 0.32 point lower for SC category. The average size of ST category in marginal, small, & semi-medium of holdings is higher than SC & all social groups, where as under medium & large category, the average size of holdings of all social groups is more than SC & ST holdings.

**Projection of operational holdings for 2010-11**

The Agricultural Census is being conducted since 1970-71 in the State at an interval of five years. The data on number & area of holdings are available from 1970-71 to 2005-06, the details are given in table 1.9 below.

<table>
<thead>
<tr>
<th>Year</th>
<th>Number of holdings (lakh nos)</th>
<th>Operated area (lakh ha)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1970-71</td>
<td>34.07</td>
<td>64.49</td>
</tr>
<tr>
<td>1976-77</td>
<td>35.76</td>
<td>57.31</td>
</tr>
<tr>
<td>1980-81</td>
<td>33.28</td>
<td>52.77</td>
</tr>
<tr>
<td>1985-86</td>
<td>35.86</td>
<td>52.61</td>
</tr>
<tr>
<td>1990-91</td>
<td>39.47</td>
<td>52.96</td>
</tr>
<tr>
<td>1995-96</td>
<td>39.66</td>
<td>51.44</td>
</tr>
<tr>
<td>2000-01</td>
<td>40.67</td>
<td>50.81</td>
</tr>
<tr>
<td>2005-06</td>
<td>43.56</td>
<td>50.19</td>
</tr>
<tr>
<td>2010-11 (Projected)</td>
<td>43.84</td>
<td>46.79</td>
</tr>
</tbody>
</table>

The projected number of holdings & area of the State for 2010-11 would be 43.84 lakh & 46.79 lakh ha respectively. This indicates that the number of holdings will continue to increase, where as the operated area of the State will show declining trend.

**Projection Technique:** The number & area of holdings are projected basing on simple linear regression model i.e., \( Y = A + BX \). Accordingly the linear equation for number of holdings is \( Y_i = 31.69 + 1.35X_i \) (where \( R_i^2 = 85.6\% \)) & for operated area the equation is \( Y_i = 61.37 - 1.62X_i \) (where \( R_i^2 = 70.5\% \)), \( X_i \& X_i \), being time period & \( Y_i \& Y_i \), the estimate of number of holdings & Operated Area.

**Assumption:**

i. Time Periods are consecutive and given numbers as 1, 2, ..., up to 8.

ii. The features of the models above remain constant for the future years.
CHAPTER - 2

Operational Holdings at District Level

The District wise number of holdings & operated area are presented in the table-2.1. The number of holdings in the seven districts like Sambalpur, Keonjhar, Nayagarh, Jagatsingpur, Boudh, Khurdha & Deogarh decline, whereas the operated area in fourteen districts like Balasore, Bargarh, Bhadrak, Cuttack, Dhenkanal, Ganjam, Jajpur, Khudha, Nayagarh, Nuapada, Phulbani, Nabarangapur, Rayagada & Sambalpur are found increased in 2005-06 over 2000-01.

The table 2.2 below represents rank of the districts as per number of operational holdings. Mayurbhanj district has maximum number of holdings with 3.41 lakh having ranked one followed by Ganjam (3.17 lakh) ranked as two. The lowest ranking district is Deogarh (0.38 lakh) followed by Jharsuguda & Boudh. There are twenty one districts whose ranks are changed due to increase or decrease of holdings in 2005-06 over 2000-01.

</table>
The high concentration of SC holdings are noticed in Balasore & Ganjam districts with 8.30% & 7.40% respectively out of total SC holdings. The ST holdings dominated districts are Mayurbhanj (15.8%), Sundergarh (10.3%), Keonjhar (8.0%) Koraput (7.5%), Nabarangpur (7.4%) & Bolangir (6.8%).
The table-2.8 gives details about district wise percentage of holdings by type out of total holdings in each category.

</table>

The concentration of individual holdings are noticed in Mayurbhanj & Ganjam districts, being the bigger districts. However in case of joint holdings, the percentage shares of Bolangir, Sundargarh, Phulbani & Koraput are highest with 21.5%, 12%, 11.7% & 11.68%.
CHAPTER – 3
Concepts & Definitions

1. Operational Holding

All land which is used wholly or partly for agricultural production and is operated as one technical unit by one person alone or with others without regard to the title, legal form, size or location. The operational holding may be categorized as marginal (<1ha), small (1-2ha), semi-medium (2-4ha), medium (4-10ha) & large holdings (10ha & above).

2. Technical Unit

A technical unit has been defined as that unit which is under the same management and has the same means of production such as labour force, machinery and animals.

3. Agricultural Production

Agricultural production includes growing of field crops, fruits, grapes, seeds, tree nurseries (except those of forest trees), vegetables and flowers, production of coffee, tea, cocoa, rubber, jute, oilseeds, fodder grass, etc.

Grass would be treated as a crop if special efforts are made to raise it.

4. Operated Area

Operated area would include both cultivated and uncultivated area, provided part of it is put to agricultural production during the reference period. It is, for instance, an operational holding consists of four survey numbers out of which one survey number is put to non-agricultural uses, the total area of the operational holding will be equal to the total geographical area of all the four survey numbers.
It would also cover the land occupied by the farm buildings, including the house of the holder, provided such buildings are located within the operated area. If the farms buildings are located outside the cultivated area and are covered under abadi area, such buildings would not be included.

Operated area would exclude government forest land, government waste land, village common grazing land, abadi area etc. If Government wasteland is allotted to an individual then it will be included in the holding.

If the entire area of the holding (the area of all the survey numbers of an operational holding) is put to non-agricultural use and/or it is under old fallow, it will not be considered as operated area. If however, the entire area of operational holding is under current fallow during the reference year but was cultivated in the preceding year, this would still be considered as operational holding. If the entire cultivated area is under current fallow land and other fallow land are also there, this will be treated as operational holding.

In some cases, land is divided amongst all the members of the family. Where it is divided between the husband, wife & minor children & the cultivation is being done by the husband as the head of the family, the land may appropriate be treated as one operational holding.

There might be cases where in the records, a holdings is shown jointly in the name of more than one co-sharer, while in fact the land may have been privately divided and the co-sharers are independently cultivating. In such cases where there is no dispute, they should be treated as many operational holdings as the number of independent cultivators. This is necessary because in Agricultural Census the data is to be collected on the basis of de facto position rather then de jure position.

In some cases, in the Zamabandi register against a Khata, name of three or four persons are shown. While from the records it would appear that there is only one holding, in practice, all the three or four bothers are actually cultivating the land independently or each other although there is no legal partition of land. From the Census point of view, this would constitute three or four operational holdings.
For cultivated areas in the State Forests, no detailed land records are prepared. In the absence of revenue records and revenue agency such areas are excluded for Census purpose.

The operated area may comprise of:

i) Land owned and self operated.

ii) Land leased in

iii) Land otherwise operated.

Land owned and self operated: Land for which the cultivator has the right to permanent heritable possession would be considered as owned. This would include:

Land held from Government or others under grant or lease or assignment with right of permanent heritable possession with or without right of transfer.

Land operated under perpetual lease.

Self-operated land would include:

Self - cultivation.

Land cultivated through members of the family.

Land cultivated with the help of hired labour. Land owned and self - operated should not include land leased out to others.

Land leased in: Area leased in is defined as land taken on lease from others without any permanent right of possession for the lessee. Land may be leased in for:

Fixed money

Fixed produce

Share of produce
Usurfructuary mortgage: Ownership of the property remains with the mortagager but the possession is with the mortgagee (i.e. the person to whom the mortgage is made or given). Income from the property accrues to the mortaggee and the mortgage is terminated as soon as the full amount is realized.

Other terms to be specified.

Area otherwise operated: This would include encroachment land forcibly occupied, unauthorized or land in dispute etc., which cannot be treated as owned or leased in, as per the definitions given above.

5. Operational Holder

An operational holder is the person who has the responsibility for the operation of the agricultural holdings and who exercises the technical initiative and is responsible for its operation. He may have full economic responsibility or may share it with others. The operational holder may be individual / joint / institutional.

Individual If the holding is being operated either by one person alone or by group of persons who are the members for the same household it will be considered as an individual holding.

Joint If two or more persons belonging to different households, share jointly as partners in the economic and technical responsibility for the operation of an agricultural holdings, such holding would be considered as joint.

Institutional Holdings such as government farms, sugarcane factories farms, cooperative farms, lands managed by trust would be treated as institutional.
6. **Residential and Non-residential Operational Holder:**

All the cultivators residing in a particular village and cultivating some land within the same block are resident cultivators of that village irrespective of the fact whether they are cultivating land within that village or not. A resident cultivator may, therefore, have: either (i) entire area of the holding located in the village of his residence, or (ii) partly within the village of residence and partly outside, or (iii) entirely outside the village of residence.

An operational holder operating some area which lies entirely outside the block in which his village of residence falls, will not be treated as a resident cultivator of the village of his residence for Agricultural Census purpose. He will be treated, as a resident cultivator of the village outside the block where the area operated by him is located.

If an area in a particular village is operated by a cultivator who resides outside that village but within the same block, he is a non-resident operational holder for that village. However, if this operational holder is resident of a village lying outside the block, in which the area is located, he will be treated as a resident operational holder (deemed resident) of the village where the area is located.

7. **Complete/ Part-Holding**

A holding is said to be complete holding if the entire operated area of that holding is located in one village. If the operated area is spread over more than one village, it would be considered as part-holding.

**Table Note**
- Table 9 presents a comparative statement on the number and area of operational holdings by sex and social groups in the agricultural census of 2005-06 for the state of Orissa. The table categorizes the holdings into different size groups and shows the differences between the years 2005-06 and 2000-01. The data is divided into social groups, with a general comparison across all social groups. The table highlights the changes in the number and area of operational holdings for various size classes, providing insights into the agricultural landscape and operational changes over the specified period.
